

## SENTINEL SPECIALS.

**A Budget of Seymour News.**  
Special to the Sentinel.  
SEYMOUR, Ind., March 13.—Mr. Charles B. Harton, of this city, who has been at Chicago for some time, telegraphs his father that he will leave at once for the Southern States. Mr. Harton is only about twenty-seven years of age.

John Gale and Willie Lebrant, aged some fifteen years, got into an altercation a day or two ago, when the former hit the latter in the temple with a rock, and he fell insensible and is partially so yet, and his condition is critical.

There were 212 marriages in Jackson County last year, a slight decrease compared with the year before.

There is a horse in this county that has lived to see two Democratic Presidents. The animal is twenty-nine years old, is quite active, and sold this week for \$25.

Many of our farmers are beginning their spring work, and they expect to plant above the usual amount of ground to "nutmeg" melons this season.

Paymaster Jackson, of the Ohio and Mississippi Road, came in last night and paid off in full for February. The pay-roll for this point amounted to over \$28,000. Many of the engineers made \$100 each.

Captain John Scott, an esteemed and useful citizen of this county, left yesterday for the West, where he will probably locate. He was Sheriff four years and Clerk eight.

**Policeman Hit With a Rock.**  
Special to the Sentinel.

LAFAYETTE, Ind., March 13.—On account of the many loafers, who are making themselves at home around the Washburn freight yards, that company has employed special watchmen to guard the surroundings of their property from intrusion. Dave Leslie, one of the special police employed, while making his rounds last evening was struck down with a rock by some unknown person, who made his escape without detection. Mr. Leslie was stunned by the blow, and making his way to the depot, found he had received two painful gashes right below the eye. Nobody is suspected of the deed, and the nature of the offense is also a mystery. It is supposed to be the work of loafers.

**Residence Burned.**  
Special to the Sentinel.

GREENFIELD, Ind., March 13.—The frame residence of John A. Bodine, four miles east of this city, burned last night. Loss, \$2,500; insurance, \$1,500. A defective fire.

**The Trial of James D. Fish.**  
NEW YORK, March 13.—The trial of ex-President James D. Fish, of the defunct Marine Bank, was continued to-day in the United States Court. Henry Dabell submitted a statement of Grant & Ward for 1884. It showed that the firm had to its credit May 3, \$1,388,000. It drew out on that day \$1,182,000, leaving a balance due the bank of \$206,000. On May 5 deposits were made to the amount of \$510,000, against which was drawn out \$868,000, leaving the firm indebted to the bank \$352,000. The bank failed the next day. Nathan D. Dabell, assistant cashier of the Marine Bank, was recalled and testified that on May 5 President Fish received a letter from F. Ward, and then directed witness to deliver to the messenger from Grant & Ward \$1,000,000 in notes of the Chicago and North Western Railroad, indorsed by the New York and Lake Erie Railroad, and 150 shares of the Union Dry Dock Company of Buffalo. Ward in his note said if these securities were sent he had a time loan and would bring down a lot of bonds in their place the same day. The letter concluded, "every little helps." The securities were withdrawn without payment of the loan which they were intended to secure. The total of the call loans and overdrafts which the firm of Grant & Ward had with the bank was \$2,060,000.

**The Situation in Oklahoma.**  
WASHINGTON, March 13.—In answer to a telegram from the Secretary of War, relating the exact condition of affairs in Oklahoma, General Hatch to-day telegraphed from Caldwell, Kas., that no trespassers were now in the Indian Territory. About 1,200 settlers, he said, were camped in Kansas near the Territory border. They were threatening to go over the line, but as yet had taken no steps of that kind. Troops are stationed in the Territory, the General said, and will drive out any invaders that may attempt to settle on the lands. At a meeting of the Cabinet yesterday the Oklahoma question was considered at length. It was said an impression prevailed among those who contemplated invasion of the Territory, that President Arthur's proclamation relative to trespassing upon the Indian lands had become inoperative with the close of his administration. To prevent such action of the invaders as would nationalize upon the prevalence of such an impression, it was thought best that President Cleveland should issue a proclamation similar to that issued while Arthur was Chief Executive. This proclamation is now prepared and will shortly be issued. It will forbid the invasion of trespassers upon Indian lands in the Indian Territory.

**Pope, Cole & Co. of Baltimore Have Made an Assignment.**

BALTIMORE, March 13.—Pope & Cole, dealers in metals, have assigned to William Keyser for the benefit of their creditors. Their liabilities are stated to be \$1,000,000. The firm of Pope, Cole & Co. are proprietors of the Baltimore Copper Works at Canton, and is said not to be affected by the troubles of Pope, Cole & Co. Interested parties refuse to say anything on the subject. A meeting was held to-day of parties interested, but no information could be had, and no deed of trust has yet been filed. It is now said the assets will probably reach within \$100,000 of the liabilities. In the firm of Pope, Cole & Co., proprietors of the copper works, George A. Pope and George B. Cole are general partners, with the following special partners and the amounts invested by them: \$30,000 by J. W. Garret, \$30,000 by William Keyser, \$10,000 each by G. W. Ward and J. S. Gilman.

**The Failures of the Week.**

NEW YORK, March 13.—The failures of the last seven days reported to R. G. Dun & Co. number, for the United States, 238; Canada, 34; total, 282 as compared with 277 last week. The failures seem to be on the increase in Canada, but in New York City and the Eastern States are below the average. The Southern and Western States furnish two thirds of the total number in the United States.

**Demise of an Old Paper.**

CLEVELAND, March 13.—The Cleveland Herald has gone out of existence. The Plain-Dealer bought its plant, moved into the Herald Building immediately and began the issue of a Democratic morning daily.

The absorption of the Herald closes out the oldest Republican newspaper not only in Cleveland but in Northern Ohio. It was founded in 1819.

**The Proclamation of Barrios.**

LALIBERTAD, San Salvador, March 13.—The decree, issued by President Barrios, proclaiming the Central American Republic, did not become public here until yesterday. In it he states that after serious consideration he had issued a decree proclaiming himself Chief of the Republic of Guatemala, and the Central American Union a single Republic, assuming the title of "Supreme Military Chief of Central America," taking as such absolute command, and declaring anyone pronouncing himself opposed to the Union or embarrassing his movements, to be treated as a traitor to the great cause of nationality, and subjects himself to the pains and penalties thereof. He urges all chiefs, officers and soldiers of Central America to join him, offering promotion, with decoration and compensation.

**Governor Marmaduke's Proclamation.**  
ST. LOUIS, March 13.—Governor Marmaduke has issued a proclamation warning the strikers, and all persons associated with them, that interfering with the movements of engines and trains and intimidating other persons who may be willing or desirous to work, is unlawful, and calls on all county and municipal officers to promptly enforce the laws, and commanding all individuals or combination of individuals, in any way engaged or concerned in interfering with the free traffic of railroads, or in the intimidation of their employees, to desist at once and without further warning.

**Working a New Dodge.**  
ST. LOUIS, March 13.—The restoration of wages made on Wednesday evening to the men working in the Missouri Pacific shops in this city, has been extended to all men employed in the large machine and car shops on the Iron Mountain Road, at De Soto, forty miles south of here, and the men are highly commended for their loyalty to the company.

**A War Tower Burned.**  
PETERSBURG, Va., March 13.—The tower or observatory on the farm of William L. Pobles, Dinwiddie County, which was built for and used by General Grant during the siege of Petersburg by the Federal army, has been destroyed by fire. The tower was 160 feet in height and occupied a site opposite Fort Fisher, one of the largest forts on the line.

**Blown Up With Gunpowder.**  
ZANESVILLE, O., March 13.—During the thunder storm of Wednesday night the saloon of Harry Barton, in the village of Riceville, nine miles from here, was blown to pieces by a keg of powder exploded beneath it. It was the only saloon in the place, and had recently opened.

**Base Ball Players.**  
NEW YORK, March 13.—Trades Unions are working to have the black-list ball players protected by the Knights of Labor. The only offense is that they left one employer to go to another because the latter offered them higher wages than they were getting.

**Illinois Senatorship.**  
SPRINGFIELD, Ill., March 13.—In the Joint Convention only Democrats answered to the roll-call. The first ballot was Morrison, 98; Black, 1; Ward, 1. The second and third ballots showed no change.

**Garfield During His Inauguration.**  
[Washington Letter to the Baltimore Sun.]  
I don't think I ever saw a man look worse than Garfield did when he was sworn in as President. The blood seemed to have left his face, and he was exceedingly nervous. He looked as frightened as if he had had a vision transpiring before him illustrating the terrible suffering that he afterward went through. Ordinarily Garfield made all his gestures with his left hand, but in delivering his inaugural it was noticed that he used his right hand exclusively. This made him appear strange to many of his friends, for it completely changed his manner. He must have suffered intensely, though he tried as hard as possible to stand up under it. I have often thought that his action in turning towards and kissing his wife and aged mother was the result of accident instead of intention. My idea then was, and has continued to be, that he felt back exhausted, and that his kissing of his wife and mother was an afterthought. I saw him the morning he was taken from the White House to be removed to Elberon to die. He looked worse when he was being inaugurated than he did that morning.

**No Failure on the Social Side.**  
[Washington Letter to the Springfield Republican.]  
The Administration will not fail on its social side. The advent of Jackson to the White House was distinguished by excesses that will have no place now. Mr. Cleveland came down here accompanied by his clergyman brother, his three cultivated sisters and several nieces, and he took the oath of office on the little worn Bible that is hallowed by memories of his sainted mother. This was a genuine touch of moral feeling, and it illustrates the best side of Cleveland's character. His conduct of the White House will be such as to meet the approbation of the conservative people of the country, and in this regard is likely to be a wholesome improvement upon the pattern set by Mr. Arthur. Extravagant living has spread from the administrative circles to general society here in a way to embarrass people of modest means.

Sir J. B. Lawes says that carbon—which is only another word for vegetable matter, alive or dead—appears to be the only medium by which nitrogen is accumulated in the soil to be used again by living vegetation.

It does not depend so much upon the amount of land tilled, as upon the thorough and efficient manner in which it is done.

It is told by Tobias Lear that when General Washington first complained of his cold he advised him to take something. "No," answered Washington, "you know I never take anything for a cold; let it go as it came." But it went to his lungs, and in a few days the Nation mourned the loss of its father. How significant the warning! Dr. Bull's Cough Syrup can be obtained of every druggist.

All other breeds of sheep in this country are outnumbered by the Merino, and perhaps the Cotswold holds second place.

A hay crop of two and a half tons carries off 450 pounds of mineral matter to the acre.

Shavings sprinkled with diluted carbolic acid will make a nest free from vermin.

**New Light on Rheumatism.**  
"I had been completely disabled from rheumatism. I used Parker's Tonic for kidney disease, when, to my astonishment, the rheumatism completely disappeared." So writes Mrs. Henry Bogert, of No. 454 Atlantic avenue, Brooklyn, N. Y. Rheumatism arises from the failure of the kidneys to separate the uric acid from the blood.

## A MOTHER'S PRESENTMENT.

Harry Her Son After Believing for Months That He Would Soon Die.

[New York Sun, March 6.]

Harry S. Pratt was buried in Mount Pleasant Cemetery, Newark, yesterday afternoon, after service at his parents' home at 22 Summer avenue. He was twenty-one years old, and had been for three or four years shipping and receiving clerk for Bartholomew & Greenleaf street, this city.

Mr. Martin, of the firm, and young Pratt were standing in front of the store on Tuesday, when a large coping stone fell from the third story and struck Harry Pratt on the head. He staggered, fell into Mr. Martin's arms, and an hour later died in the Chamber Street Hospital.

The young man was an only son, and was idolized by his parents. Mrs. Pratt had been expecting the calamity for several months.

"I don't like publicity," said Mr. Pratt last evening, "but as several persons have heard of my wife's presentment, I may as well give you the facts. All through the winter Mrs. Pratt felt that some great misfortune was going to befall Harry, and her forebodings impaired her health. All the time, however, she kept from me the cause of her anxiety."

"On Monday night she dreamed that she stood beside an open grave. A casket was there, and she was told to open it. She read Harry's name and age. The date of death wasn't given. She kept this dream from me also. She was so convinced that the long-looked-for affliction was at hand that the next day when I went home to break to her the news of his death, she asked me at the door, before I could speak:

"Is Harry dead?"

"At the funeral to-day the coffin-lid was removed and stood up on end, and I thought then of the dream."

**How to Preserve Ham.**—Cut the ham in slices as usual for frying; then fry it a little and pack in a stone jar, and cover it with melted lard to keep the air from it. When you wish it for the table, take out the necessary amount and cook as usual. In this way ham can be kept sweet through the warmest weather.

**Novelty Pie.**—The habitual pie eater must have variety to help make it try his respect. Mix one egg, one heaping teaspoonful of flour, one teaspoonful of sugar, one teaspoonful of cold water, one tablespoonful of sharp vinegar; flavor with nutmeg or cinnamon, with a little mace, and bake with two crusts.

**Barbed-wire fences** are destined to answer other purposes than turning stock. A Maryland farmer has been experimenting with the fences for telephone use, and announces that farmers and others will soon adopt them for such purpose.

"That Miss Jones is a nice looking girl, isn't she?"

"Yes, and she'd be the belle of the town if it wasn't for one thing."

"What's that?"

"She has catarrh so bad it is unpleasant to be near her. She has tried a dozen things and nothing helps her. I am sorry, for I like her, but that doesn't make it any less disagreeable for one to be around her."

Now if she had used Dr. Sage's Catarrh Remedy, there would have been nothing of the kind said, for it will cure catarrh every time.

A sheep has eight front teeth, all equal in size, the first year. The second year the two middle teeth are much larger than the others. The third year two very small teeth appear on both sides of the eight. At the end of the fourth year there are six large teeth. The fifth year one is large. The sixth year all begin to show signs of wear.

**Horsford's Acid Phosphate**  
AS A BRAIN FOOD.

Dr. S. F. Newcomer, Greenfield, O., says: "In cases of general debility and torpor of mind and body it does exceedingly well."

Any cow can be milked dry in a few weeks by irregular milking, sometimes at intervals of twenty-four hours and sometimes of six. Separation from her usual company, a change to new location, a change of milk and milking, and a source of irritation that more or less impairs the milking qualities of a cow.

**Allen's Brain Food, Bofanical Extract,** positively cures nervous debility and all weakness of general system, either sex. \$1.60 for \$5. Druggists or by mail from J. H. Allen, 315 First avenue, New York.

**American's Pride.**  
True American men and women, by reason of their strong constitution, beautiful forms, rich complexion and characteristic energy, are envied by all nations. It is the general use of Dr. Harter's Iron Tonic, which brings about these results.

As a reindoor foretell a storm, so does a pimple upon the human body indicate health destroying virus in the blood, which can be neutralized and expelled only by Dr. Harter's Iron Tonic.

**He Thanks His Paper.**  
Mr. Editor—I was induced to reading your good paper by Dr. Harter's Iron Tonic for debility, liver disorder and scrofula, and three bottles have cured me. Accept my thanks. Joseph Ross.—Ex.

**ACHES! PAINS!**  
"I ache all over!" What a common expression, and how much it means to many a poor sufferer! These aches have a cause, and more frequently than is generally suspected, the cause is the Liver or Kidneys. No disease is more painful or serious than these, and no remedy is so prompt and effective as

**MISHLER'S M'HERB BITTERS.**  
No remedy has yet been discovered that is so effective in all KIDNEY and LIVER COMPLAINTS, MALARIA, DYSPEPSIA, etc., and yet it is simple and harmless. Science and medical skill have combined with wonderful success those herbs which nature has provided for the cure of disease. It strengthens and invigorates the whole system.

Non-Thomas Stevens, the distinguished Congressman, once wrote to a fellow member who was suffering from indigestion and kidney disease: "Try Mishler's Herb Bitters, I believe it will cure you. I have used it for both indigestion and affection of the kidneys, and it is the most wonderful combination of medicinal herbs I ever saw."

**MISHLER'S M'HERB BITTERS CO.,**  
525 Commerce St., Philadelphia.

**Parker's Pleasant Worm Syrup** Never Fails

## March April May

When the weather grows warmer, that extreme tired feeling, want of appetite, indigestion, languor, and lassitude, afflict almost the entire human family, and scrofula and other diseases caused by humors, manifest themselves with many. It is impossible to throw off this debility and expel humors from the blood without the aid of a reliable medicine like Hood's Sarsaparilla.

"I could not sleep, and would get up in the morning with hardly life enough to get out of bed. I had no appetite, and my face would break out with phages. I bought

a bottle of Hood's Sarsaparilla, and soon began to sleep soundly; could get up with that tired and languid feeling, and my appetite improved." R. A. SANFORD, Rect., O.

"I had been much troubled by general debility. Last spring Hood's Sarsaparilla proved just the thing needed. I derived an immense amount of benefit. I never felt better." H. F. MILLER, Boston, Mass.

**Hood's Sarsaparilla**  
Sold by all druggists. \$1; six for \$5. Made only by C. I. HOOD & CO., Lowell, Mass.

**100 Doses One Dollar**

**Hood's Sarsaparilla**  
Sold by all druggists. \$1; six for \$5. Made only by C. I. HOOD & CO., Lowell, Mass.

**100 Doses One Dollar**

**Health Preserving**

**BRICKS!**

**THE HYDRAULIC PRESS BRICK CO.**  
ST. LOUIS, MO.

**Make a Specialty of Ornamental & Plain Red Front Pressed Brick.**

**Manufacturing Annually over TEN MILLIONS.**

They guarantee that the quality, finish and color, are unsurpassed, if not unequalled by any other bricks made in the United States.

**CONSUMPTION.**

I have a positive remedy for the above disease, by its use thousands of cases of the worst kind and of long standing have been cured. Induce me to send you my faith in it, and I will send you two bottles FREE, together with a VALUABLE TREATISE on the disease, to any sufferer. Give address & G. O. address. DR. T. A. SLOCUM, 101 Pearl St. N. Y.

**JOSEPH CILLOTT'S STEEL PENS.**

**WATCHES FREE!**

**HOW YOU CAN OBTAIN A WATCH FREE.**

**"The Waterbury."**

The accompanying is a correct representation of our premium Watch. It is a stem-winder, made of nickel silver, and will always remain as bright as a new silver dollar. It has a heavy beveled edge crystal face, its works are constructed of good material, and are made by the finest automatic machinery. Every watch is perfect before leaving the factory. All are thoroughly tested and adjusted, and can be honestly recommended as faithful time-keepers. They are just as represented, and are worth three times the price.

**ANY ACTIVE BOY**

Can easily secure one of these Watches by getting his friends to subscribe for the INDIANA STATE SENTINEL.

Following are our offers to agents:

For \$20 we will send the SENTINEL to twenty subscribers and the Watch free to the agent getting up the club.

For \$12.50 we will send the SENTINEL to ten subscribers and a Watch to the agent forwarding the club.

For \$7.50 we will send the SENTINEL to five subscribers and a Watch to the agent forwarding the club.

For \$5.00 the SENTINEL to three subscribers and a Watch to the agent.

For \$2.50 the SENTINEL one year and a Watch to any address.

Address: SENTINEL COMPANY, Indianapolis, Ind.

**PRICE, \$3.50.**

**THE CHEAPEST WORK EVER ISSUED!**

**THE WORLD'S CYCLOPEDIA**

**AND HANDBOOK OF UNIVERSAL KNOWLEDGE.**

This volume contains complete and concise information, arranged in alphabetical order, on every subject known to man.

It contains over 800 pages, 50,000 References and 1,200 Illustrations, and is the best and most popular Cyclopaedia for all classes and conditions.

It is more profusely illustrated than any other Cyclopaedia of the price, and contains a mine of information on almost every subject known to man.

Every one of the many departments is worth more than the cost of the book. As "knowledge is power" this Cyclopaedia will be a source of wealth to thousands in all ages and conditions in life. **KNIGHT & JILLSON,**  
75 and 77 S. Penn. St.

**SCROFULA**

Vanderbilt's Money Couldn't Buy It.

The Acworth News and Farmer of this week says: Mrs. Elizabeth Baker, residing within three miles of Acworth, remarks that Vanderbilt's fortune could not buy from her what is called Scrofula. For thirty-one years I have suffered almost death from that terrible disease, scrofula. For years I was unable to do anything in keeping up my domestic affairs. Last October I was induced to try Swift's Specific, and used two bottles, and was so much benefited by it that I purchased four more from Messrs. Northcutt & Johnson, which has almost entirely relieved me. I feel like a new person, and can do all my own housework. Before I took the S. S. my life was a burden, as my entire person was covered with sores, and in this miserable condition I did not care to live. I had tried every known remedy, and my case was generally regarded as incurable. I had been treated by the best physicians to no avail. I most heartily recommend Swift's Specific to the afflicted.

Messrs. Northcutt & Johnson, merchants at Acworth, say: We know Mrs. Elizabeth Baker personally; we are familiar with her case. She is highly esteemed in this community.

**Rheumatism Twenty Years.**

I have been a sufferer from rheumatism for twenty years. At times with almost intolerable pain. I had the best medical treatment, and took all sorts of remedies, but without relief. Being reduced almost to a skeleton, and not being able to walk even with crutches. I was induced to try Swift's Specific, and it acted like a charm, and I am today entirely relieved. Have thrown away my crutches, and am in excellent health. I believe Swift's Specific will cure the worst cases of rheumatism.

MRS. EZRA MERSON, Macon, Ga., Aug. 4, '84.

**Communication.**

WEITMKA, Ala., Sept. 28, 1884.—About six years ago I became afflicted with a very disagreeable skin disease, with large, dry sores, and many crusted pimples on my face, hands and shoulder. The sores on my shoulder acted out a hole nearly an inch deep, and the cause of the disease was one of the sores near my eye alarmed me very much. I tried all kinds of treatment, but found nothing that seemed to affect the disease. I finally decided to try S. S. on advice of a physician, and in a short time the scales dropped from the sores and left my skin smooth and well. I consider S. S. the only thing that will cure the disease with which I was afflicted. I think my trouble was the result of a terrible attack of malaria. I have thrown away my crutches, and am in excellent health. I believe Swift's Specific will cure the worst cases of rheumatism.

J. L. RHODES, Dep. Sheriff Elmore Co., Ala. Treatise on Blood and Skin Diseases mailed free. THE SWEET SPECIFIC COMPANY, Drawer 3, Atlanta, Ga.

**This Remedy Contains No Injurious Drugs.**

**CATARRH**
